

## Medical DTS 2014 Team Cambodia

### Week 6: There and Back Again

“I press on toward the goal for the prize of the upward call of God in Christ Jesus.” (Philippians 3:14)

**This week** we continued our ministry with YWAM Phnom Penh, this time visiting several different villages south of Phnom Penh. We did a lot of travelling and a lot of ministry, but overall had such a fantastic week.

(Above: Sunday's before-church activity: saying “see you later” to Barbara before her flight back to New Zealand! Left: Having one of our famous “pill parties” in a guest house room, preparing medication packets for a clinic)

**Our week started with** visiting two villages where ministry is coordinated by Seth, a YWAM'er who loves his region and has a lot of vision for the area. He has established two churches (where we ran two clinics on different days) and a school, reaching out to many people young and old in the area. He and his wife blessed us so much with their preparation and service!

**We then packed up and left Phnom Penh** to drive a few hours to a village home to Vouthy, a former tuk-tuk driver who started following Jesus about 6 years ago and has since moved back to his home village, built up two churches, a school, a coconut oil business, a group home, and has plans for a

university and mercy clinic in the area. It was such a blessing to get to know him, and run two clinics in the villages he lives and works in. We stayed in a guest house with a view of the Cambodian countryside, cows and rice paddies and all. ☺

**After all that travelling and clinic-running,** it was back to Phnom Penh for a quick de-brief time with YWAM Phnom Penh, then the next day we started our last leg of ministry for our outreach! For the next two weeks we'll be with Phillip, a Korean man who pastors a church and hosts a group home in Phnom Penh for university students from villages. Many of these students are studying medicine, nursing, or midwifery, and some will be travelling with us to their own villages to host clinics and other ministry. For the next two weeks we'll be travelling quite a bit, moving from guest house to guest house and village to village, but it'll be neat to see some Cambodian countryside and bless these students' villages!

(Right: Max runs a foot washing ministry at a clinic in one of Seth's villages)

(Below: The view from our tuk tuk of traffic in downtown Phnom Penh)

**Please pray** for us this week as we travel a lot; pray for safety on the roads, for rest and physical health for all of us, and for energy and enthusiasm to finish our outreach well. Pray for our ministry in the villages, for God's love and light to be shown through us as we serve the people there.

**‘Til next time, from Cambodia with love!**
